DURING THE EXAM

- The exam is 50 multiple choice questions, timed for 60 minutes.
- You may not leave the room to go to a "bathroom break" in this time. If for any reason you must leave the testing room before the 60 minute testing period ends, you will turn in your test book and test response form and your ID will be returned to you. Scoring will occur on whatever part of the exam responses you completed. But see the next point on ACCOMMODATIONS and DSPS Policy to help you in the 60 minute testing period.
- ACCOMMODATIONS and DSPS Policy: if you have a condition that requires you to leave the testing room for any reason within the 60 minute testing time for this and any such examination, you need to contact the College's DSPS office and arrange for an accommodation. This will likely involve you taking the exam BEFORE the Tuesday the 19th at the DSPS center, who will control the conditions for your accommodation. MAKE THIS ARRANGEMENT TODAY SO WE CAN PREPARE.

- When you finish, you must return your test booklet, the scratch paper, and your Scantron®.

AFTER THE EXAM

- Your scores will be curved against the national average for your exam. The curve varies from semester to semester.

GOOD LUCK
