- Students are to hold NOTHING on their laps during exam
- Backpacks, bags, any other container except water on floor beneath desktop
- No smart devices of any kind in view—stow them!

***Allowed on desktop***

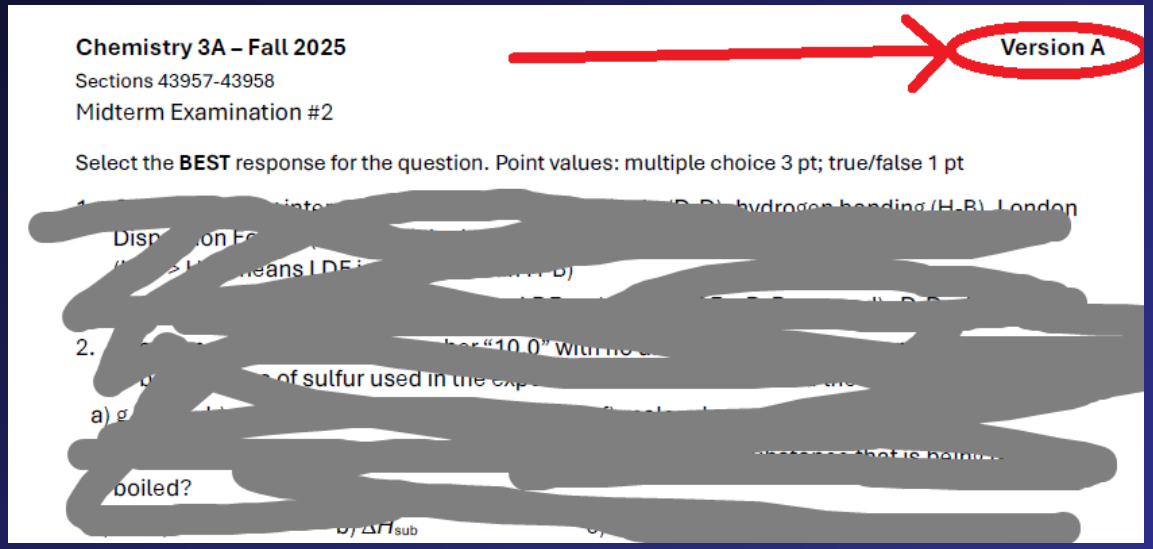

- approved calculator
- Test form: 50Q-OMR or Scantron 95677
- Pencil with dark "lead" (No. 2 or HB grade or better)
- Eraser that works to erase
- 3x5 in index card, or cut paper, with HANDWRITTEN notes on both sides
- Water container

## *What You Are Provided*

- The exam
  - 3 sheets of paper. The first two sheets have the exam questions. The 3rd sheet is blank with scratch paper
  - Tear the 3rd sheet off and use it for writing: making calculations, composing poetry or a short novel…whatever purpose you set to it
- Yellow sheet – periodic table one side, frequently used constants and conversion factors on other
- Green sheet – lots of useful info related to chemistry

You are not to write anything on the Yellow or Green Sheets AT ALL.

You are only to write on scratch paper (3rd sheet of exam) or the exam itself

Chemistry 3A – Fall 2025

Version A

Sections 43957-43958

Midterm Examination #2

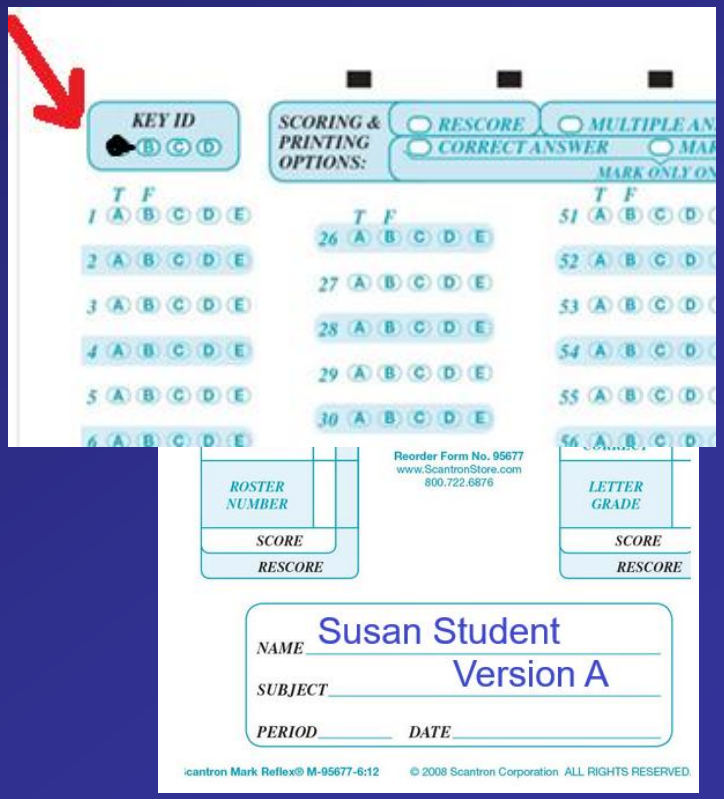

Select the **BEST** response for the question. Point values: multiple choice 3 pt; true/false 1 pt

boiled?

Mark the version written on your Name area AND that you fill in the oval (red arrow) of your Version

Be careful of multiple choice (4 or 5 choices) and the True/False questions

Best wishes for your success

## *After You Have Completed The Exam*

1. Bring your test form (50Q-OMR or Scantron) to me. It should have
   - your Name
   - your Student ID and writing and entered in the ovals
   - your Version of test (A or B) in writing & entered in ovals
2. The Yellow and Green Sheets, with no marks on them, not folded or spindled or mutilated
3. You get to keep your exam, your 3x5 notes, your scratch paper
4. I will try to get the keys to versions up
5. I will try to get the exam with answers/explanations (part of the learning process that I believe in because that is how Aggies did it)
